DOVE DATA PRODUCTS

NEO-RLS
A Time for Change

Switch to Dove Data and receive free support and services.

Learn what other companies have known for years. Dove Data has been able to help their clients reduce their operating costs on their non-leased printers. With prices up to 50% lower, it's a guaranteed win for your organization every time.

How it Works:

Clients who make the switch to Dove Data would receive free support and repair services during the period in which they buy the consumable supplies. There is no expiration or contract to be signed for this program. Simply contact you representative and ask for a trial. Trials toners are at no risk and the customer will not be charged for the sample if satisfaction is not met.

You could be saving 30%-50% on your toner costs while saving the environment.

Dove Data prides itself on our high quality that is demonstrated by our repeat, satisfied customers. Dove Data only sells OEM and manufacture Certified cartridges to guarantee page yield, print quality and damage resistance during shipping.

Here's how we'll save NEO Libraries even more:

- *15%* off catalog price on all toners and maintenance kits
- *FREE* printer repair when no parts are needed
- *FREE* preventative maintenance
- *FREE* inventory management
- **100% Satisfaction** guaranteed

Any product bought through Dove Data that does not meet the customer needs will be returned and credited for the appropriate amount. This program is designed to be risk free and help our valued customers to save money and time on repairs as we move into a new year.
