MARKETING PLAN

Approved by the Board of Trustees on May 17, 2022
INTRODUCTION

The Northeast Ohio Regional Library System (NEO-RLS) is a multi-type library consortium bringing together a wide variety of talents and resources to maximize library potential throughout the 22-county region. While partially funded through the State of Ohio, NEO-RLS is heavily dependent on the membership dues paid by public, academic, special, and school library members, as well as fees for services. The staff of NEO-RLS provides high quality training, professional development opportunities, and services that meet the varying needs of regional members.

JUSTIFICATION

This plan is intended to guide the on-going marketing efforts of NEO-RLS to work in tandem with the organizational goals and objectives of current and future strategic plans. A review of the plan will be conducted every two years using a SWOTA analysis and updates will be made as needed.

NEO-RLS provides high-quality, high-value staff and organizational development opportunities, and dynamic collaborative possibilities to the diverse Northeast Ohio library community.

SITUATION ANALYSIS

Target Audience

NEO-RLS serves all public, academic, school, and special libraries located within the Northeast Ohio region. However, the target audiences can be segmented further into the following groups:

- Library staff/paraprofessionals
- Professional librarians
- Library administrators
- MLIS students
- Retirees
- Out of region individuals
- Out of state individuals

Needs of target audience:

- Continuing education
- Network and collaboration opportunities
- Consulting services
- Vendor discounts
- Circulating collections

*A needs assessment survey is conducted every two years per the Administrative Policy manual.

According to survey data from 2021, NEO-RLS members desired more diversity in continuing education offerings and speakers. Members asked for more DEI training for their staff and help with recruiting more diverse job applicants. They also expressed interest in marketing and IT specific programming.

Many respondents felt that programs and services were more tailored to library management and administration. Participants asked for increased continuing education offerings relevant to library staff. There was an interest in knowing more about, and, in increasing representation of library staff on NEO-RLS committees and board.
